# Joining via Telephone

If you have been invited to a teleconferencing session you will be emailed a telephone number and unique pin code similar to the sample image which will allow you to join.

You must dial the number and await instruction before entering the pin.

An automated voice will answer and ask for the pin followed by the hash/pound (#) key.

Once the pin is keyed followed by the hash/pound key you will be entered into the meeting.

**Anonymous dial in:**

+44203 ..... PIN: 315 27 .....

 Dial In

The image shows a sample of a teleconferencing invitation. It features a light gray background with a black border. At the top, the text "Anonymous dial in:" is displayed in a bold, black font. Below this, there is a white rectangular box containing the text "+44203 ..... PIN: 315 27 .....". To the right of this box is a small icon of two overlapping squares. At the bottom of the box, there is a gray button with a white phone handset icon and the text "Dial In".
